

## **1 A section**

Hello, world!

This next paragraph starts on one page, ...

... with some more text on the next page.  
some text

## 2 Another section

### 2.1 Another subsection

Now, here is some math; firstly without any tagging:  $(\alpha + \beta)^2 + \gamma$ ,

then with tagging:  $(\alpha + \beta)^2 + \gamma$  ..., with some text in between, before both tagging and alternative text for 'Read Out Loud':  $(\alpha + \beta)^2 + \gamma$ .

This one has alternative text attached to the structure; but then this attribute exports into the .xml file:  $(\alpha + \beta)^2 + \gamma$ .

$$\int_0^1 x \, dx$$

Goodbye.
