Jameson, Guinness, Jim Beam, Bacardi, ...

The screenshot shows the Jameson website with a dark green navigation sidebar on the left and a main content area on the right. The sidebar contains the Jameson logo and menu items: Drinks, How it's Made, Our People, Our Whiskeys (highlighted in green), Our Spirit, Visit Us, and Shop. The main content area features a row of seven Jameson whiskey bottles against a dark green background. Below the bottles is a black banner with the text "OUR WHISKEYS". Underneath the banner is a paragraph of text: "It all started back in 1780 when John Jameson created his triple distilled, smooth and perfectly balanced Irish Whiskey. Today, we continue his tradition by making sure Jameson is always as perfect as the day John Jameson released his first cask. It isn't easy, but we want to make sure it's worth every sip you take." Below this text is a horizontal line with the text "Jameson Irish Whiskey" centered. At the bottom, there is a small image of a bottle neck and the text "JAMESON IS TRIPLE DISTILLED" in large green letters, followed by "which makes it twice" in smaller green letters.
