The workshop will also include several social events, and a trip in the vicinity of Brno, all included in the conference fee.

**Location:** The workshop will take place at the Faculty of Informatics, Masaryk University Brno.

Brno is the capital of Moravia, which is in the south-east part of the Czech Republic. It is the second-largest town in the Czech Republic (with a population of about half a million). It had been a royal city since 1347. Historical and artistic places of interest include: Špilberk and Veveří castle, The Old and New City halls, The Augustine monastery, with St Thomas' Church and crypt of Moravian margraves, The "Bishops' Church" of St Peter & St Paul, The famous villa Tugendhardt, designed by Mies van der Rohe, and many other sightseeings.

In the immediate surroundings of Brno are the Moravian Karst with Macocha Chasm and Punkva caves; the site of the "Battle of the Three emperors" (Napoleon, Alexander of Russia, and Franz of Austria), commonly known as the Battle of Austerlitz; the château of Slavkov (Austerlitz); Pernštejn Castle and many other attractions.

**Travel:** Brno can be reached easily by direct trains from Prague, Vienna, Bratislava, and Budapest, or by plane to Vienna and then by coach or train (130 km). Another possibility is to go by plane to Prague and then travel about 200 km by coach or train or plane (newly established air bridge Prague–Brno).
