

Department of Functional Genomics and Proteomics,
Institute of Experimental Biology, Faculty of Science,
Masaryk University

cordially invites you to a seminar:

Tandem repeats and differentiation

Edward N. Trifonov

*Head of the Genome Diversity Center, Institute of Evolution, University
of Haifa, Israel*

*Department of Functional Genomics and Proteomics, Masaryk
University, Brno, Czech Republic*

The seminar will be held on April 7th, at 10.00 am, UKB, Kamenice 5, seminar room of building A3.

Professor Trifonov is author of ca. 190 peer-reviewed publications in structural biology, biophysics and bioinformatics. His contributions include pioneering works on DNA curvature, nucleosome structure and positioning, early molecular evolution and periodic codes in DNA.
