

1 A section

Hello, world!

This next paragraph starts on one page, ...

... with some more text on the next page.
some text

2 Another section

2.1 Another subsection

Now, here is some math; firstly without any tagging: $(\alpha + \beta)^2 + \gamma$,

then with tagging: $(\alpha + \beta)^2 + \gamma$..., with some text in between, before both tagging and alternative text for 'Read Out Loud': $(\alpha + \beta)^2 + \gamma$.

This one has alternative text attached to the structure; but then this attribute exports into the .xml file: $(\alpha + \beta)^2 + \gamma$.

$$\int_0^1 x \, dx$$

Goodbye.
