

# VB039, VB040

## ENGLISH I, II -SEMINARS

VB039 is a complementary course to VB035 and its aim is to give students a lot of practice in advanced language and communication skills and to help them communicate more effectively by improving their grammatical knowledge and developing IT-related vocabulary. The course has fewer students and so its objectives are tailor-made, for example: to increase IT vocabulary; to develop essential communication skills such as giving presentations and taking part in discussions; to improve fluency through discussion activities; to give confidence in using English.

Students can give their final presentations in IBM Delivery Centre Brno, to get feedback from their senior managers.
