About EmbedIT...

< We are IT professionals who design, develop & support business critical applications across all companies within Home Credit Group & Airbank.

< **10** - exact number of countries where we deliver our solutions

< **13** - number of time zones we operate in

< **800** + - operating systems

< **500** + - is current number of EmbedIT employees

< **13** - data centers around the world

About the Group

PPF Group

- PPF Group invests into multiple market segments such as banking and financial services, insurance, real estate, energy, metal mining, agriculture, retail and biotechnology. PPF's reach spans from Central and Eastern Europe to Russia and across Asia. PPF Group owns assets amounted to EUR 21.5 billion (as of 31 December 2012). More than 20-year-long history of PPF Group is a tale of discipline, courage, and professionalism of a team led by the Czech founder and majority shareholder of PPF Group N.V., Petr Kellner.

PPF

Air Bank

- It's fully-fledged 21st century bank, with a branch network and next generation Internet banking. You can find a clear, comprehensible offer of services where satisfaction is guaranteed. Air Bank is convinced that, in the Czech Republic, there are a lot of people who have a different idea of what a bank should be. They want an open and honest institution and where people will be regarded as customers and not numbers. According to Air Bank, a bank is a service, and as such should be clear, transparent and accessible.

ČLEN SKUPINY PPF

Home Credit

- Home Credit is part of PPF Group and focuses on providing services in consumer finance. It has been long since it exceeded the border of the Czech Republic and expanded (and is still expanding) to a number of global markets, focused on emerging markets. Home Credit provides not only loans, but in some countries also offers traditional retail banking services such as current accounts and deposits. For example, in Russia Home Credit is one of the most profitable and biggest private banks within the country.
