SolarWinds Summer Internship Program

The goal of the “**SolarWinds Summer Internship Program**” is to give students the opportunity to get experience from an international company. It is a paid program. The added value is the opportunity to get hands-on experience from development and testing of commercial software. Students can refer to it in their CVs and thus be more attractive to future employers.

Why to select SolarWinds Internship Program?

- To get experience from successful international company
- To get hands-on experience from building a commercial software
- To work with some of the smartest people in software development in Brno
- To be able to compare the reality with what you learn at school
- To get an interesting record in your CV

Are you interested?

- Contact us by May 18th 2012
- You will go through selection process
- Start of the internship July 1st 2012
- Duration (flexible, 2-3 months)

Office Address:

SolarWinds Czech s.r.o.
Holandská 6, 639 00 Brno
