ESET Wins PCMag Consumer Recommended Award for Security Suites and Stand Alone Antivirus Software

Leading enterprises entrust their IT security to ESET

Leading enterprises entrust their IT security to ESET

CUTTING-EDGE TECHNOLOGY

Exploit Blocker

New detection technology

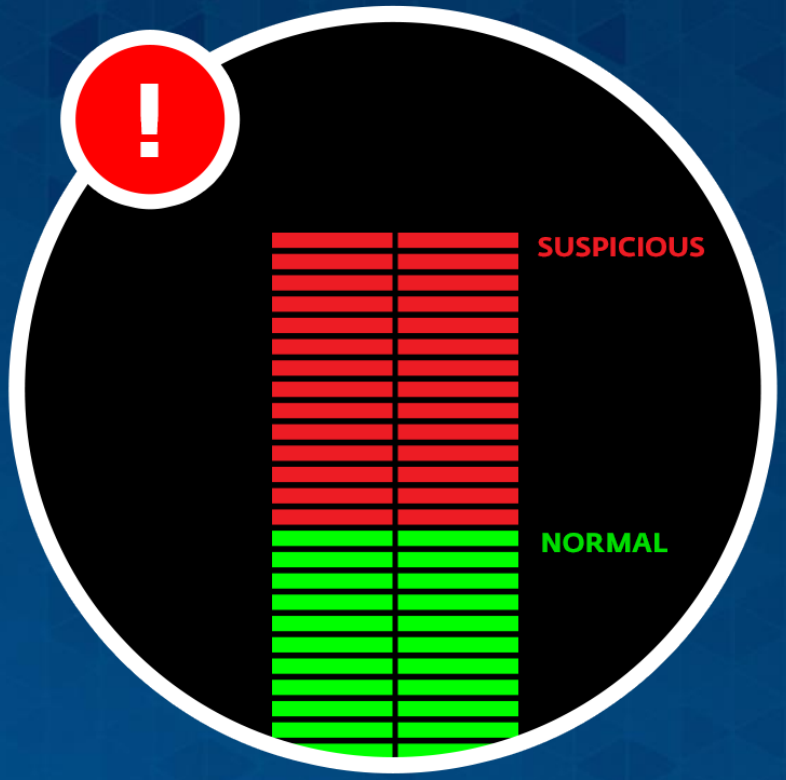
Strengthens protection against targeted attacks and previously unknown exploits – i.e. zero-day attacks

Advanced Memory Scanner

Monitors the behavior of malicious processes

Scans them once they decloak in the memory

Provides effective prevention of infection by heavily obfuscated malware.



Botnet Protection

Protects against infiltration by botnet malware

Prevents spam and network attacks from being launched from the endpoint

Network Attack Protection

Improves detection of Common Vulnerabilities and Exposures (CVEs) on widely used protocols such as SMB, RPC and RDP

Protects against vulnerabilities for which a patch has not yet been released or deployed
